At Agua, we love fabrics. Family owned and run for four generations, there's nothing we don't know about upholstery fabrics and nothing we won't do to support our clients. We create market-leading contract fabrics for each and every sector; from healthcare to hospitality and from workplace to cruise. We offer both soft fabrics and faux leathers, always with a focus on pairing form with function. Our fabrics are highly durable, fire retardant, waterproof, stain-resistant and anti-microbial. Our soft fabrics feature a new state-of-the-art protective technology, AguaGuard 365, which

has been tested and certified effective against COVID-19.

Our first waterproof and fire-retardant upholstery collection was launched in 2004 to great acclaim and we now have over 1000 performance fabrics in over 35 collections. The huge choice of colours, textures and design detail across the ranges ensures that there is a fabric to suit any commercial décor.

EGGER is a worldwide manufacturer of wood based decorative panels, laminate, edging, worktops and flooring. It is a full range supplier of materials suitable for multiple applications across the residential, hospitality, retail, student accommodation, education, healthcare, cruise ship and public sectors.

Environmentalism has been at the heart of EGGER since it was founded in 1961. Its wood based panels create a market for waste wood that would otherwise be sent to landfill or biomass. Founder, Fritz Egger Senior, is famously quoted as saying “Wood is far too

valuable to just throw it away!”

EGGER operates a closed loop environmental cycle across all 21 of their sites worldwide. This method benefits the environment through the efficient use of wood materials.

EGGER combines the latest production technology with trend-led designs and multiple matching products to provide all of the materials and decors required to support your design projects.

Trevira CS is a brand of Indorama Ventures (IVL) owned company Indorama Ventures Fibers Germany GmbH. Trevira CS has become a synonym for flame retardant fabrics. Unlike fabrics with a flame-retardant finish, which can lose their initial protection through use, aging or frequent washing, Trevira CS textiles offer long-term safety thanks to the chemical structure of the polyester fiber: the flame-retardant properties are firmly anchored in the fiber and cannot be altered by external influences.

Trevira CS fabrics have been tested for fire safety and have received a trademark approval,

meeting the requirements of the relevant international home textile fire safety standards and can be certified according to the IMO regulations for the maritime sector.

They create a safe, attractive, and comfortable environment for hotels, restaurants, hospitals, offices, public buildings, railways, aircrafts, and cruise ships as curtains, decorative and upholstery fabrics, in interior sun protection and as wall coverings or room dividers.

All of our collections are designed and manufactured in Scotland. Founded in 1783, we are one of the oldest family companies operating in Scotland today.

Our collections are used in domestic furnishing and contract projects. We can be found via interior designers, retailers, contract specifiers and in hotels, in the UK and internationally. We are also happy to produce custom shades for trade customers in any of our stock held fabrics. The Isle Mill also offers a bespoke design service to meet individual business requirements.

The Isle Mill continues to build on its legacy of quality fabrics, in natural fibre blends and pure new wool. Our collections are predominantly woven from wool as we believe it is the best choice for interior settings. It is naturally fire resistant and provides incredible insulation while also producing a robust but soft handle.

Founded by Thomas Armstrong back in 1935 and now in its 3rd generation of family ownership, Waterbury has mastered manufacturing and supplying beautifully designed bathroom accessories, cosmetic/vanity mirrors, DDA/ADA compliant Grab rails and heated towel rails to the hospitality, marine and contract market.

With over 85 years of manufacturing expertise, Waterbury have become the preferred supplier to the world's largest hotel groups such as Hilton, Marriott, IHG & Accor and more recently we have been proud to supply the biggest

brands in the marine market such as Carnival, Disney, MSC Cruises, NCL, TUI, Marella and Holland America.

Whether it is something out of our intensive existing ranges, or something a little more bespoke and unique, our dedicated project team will be on hand to help and support right the way through to delivery.

We've dedicated ourselves to crafting beautiful and durable wool carpets for a broad range of commercial environments, without compromise. While we continue to invest in state of the art, high-speed looms and technology to improve business efficiency, there are some parts of the Wilton story we cling on to: we still weave all of our carpet on the same site we started on, 300 years ago; we continue to use British wool, renowned for its hardy durability; and we maintain a relentless attention to the quality of what we produce so we continue to live up to our enduring reputation.
